(X4) ID Prefix Tag	Summary Statement of Deficiencies
D5803	<p>TEST REPORT CFR(s): 493.1291(b)</p> <p>(b) Test report information maintained as part of the patient's chart or medical record must be readily available to the laboratory and to CMS or a CMS agent upon request.</p> <p>This STANDARD is not met as evidenced by: Based on review of patient test reports maintained in the electronic medical record (EMR) and interview with the facility personnel on 11/04/25 at 2:53 PM, the laboratory failed to provide evidence of the MART-1 stain (Melanoma Antigen Recognized by T cells 1) test report for three out of three patient records reviewed during the survey. Findings include: 1. The laboratory performs testing in the subspecialty of Histopathology with a reported annual test volume of 700. The laboratory utilizes an EMR system to maintain test results and test reports. Tests performed by the laboratory include the microscopic examination and interpretation of slides from Mohs specimens, Frozen Biopsy specimens and two IHC (Immunohistochemical) stains, MART-1 and CK-5. 2. The laboratory failed to produce evidence of the MART-1 stain test result reported in the EMR for three out of three patient records reviewed, case# I25-003, I25-012 and I25-016. 3. The laboratory performed 7 CK-5 stains and 12 MART-1 stains from January 14, 2025 through October 21, 2025. 4. The facility personnel interviewed on 11/04/25 at 2:53 PM confirmed the laboratory failed to enter the test results for the MART-1 stain in the EMR for the patients indicated above.</p>
