| D0000              | Based on an on-site recertification survey conducted on September 3, 2026, deficiencies were cited for UCHealth Longmont Clinic in Longmont, Colorado.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| D5775              | <p>COMPARISON OF TEST RESULTS<br/>CFR(s): 493.1281(a)(c)</p> <p>(a) If a laboratory performs the same test using different methodologies or instruments, or performs the same test at multiple testing sites, the laboratory must have a system that twice a year evaluates and defines the relationship between test results using the different methodologies, instruments, or testing sites.</p> <p>This STANDARD is not met as evidenced by:<br/>Based on a review of the laboratory test menu, a review of the laboratory documents, and an interview with the general supervisor (GS), the laboratory failed to evaluate and define the relationship between test results using the different methodologies, specifically automated cell identification and manual cell identification. Findings include: 1. A review of the laboratory test menu revealed that this laboratory performs both automated differential and manual differential. 2. A review of the laboratory documents revealed that there is no documentation of comparison between the two methodologies of automated and manual differentials. 3. An interview with the general supervisor (GS) on 9/3/2026 at 2:23 PM confirmed that there was no comparison performed between automated and manual cell identification.</p> |
