(X4) ID Prefix Tag	Summary Statement of Deficiencies
D0000	A recertification survey was performed on June 18, 2024. An entrance conference was held with the laboratory representatives. The survey process was discussed, along with review of the survey forms that was sent to the facility, previous to the survey. An opportunity for questions and comments was given. Noted deficiencies and plans of correction were discussed with the laboratory representatives at the exit conference. The laboratory representatives were given an opportunity to provide evidence of compliance with the noted deficiencies, but none were provided. The facility was found to be NOT in compliance with all applicable CLIA requirements for specialties /subspecialties for 42 CFR.
D6127	<p>TECHNICAL SUPERVISOR RESPONSIBILITIES CFR(s): 493.1451(b)(9)</p> <p>The technical supervisor is responsible for evaluating and documenting the performance of individuals responsible for high complexity testing at least semiannually during the first year the individual tests patient specimens.</p> <p>This STANDARD is not met as evidenced by: Based on a review of the testing personnel (TP) competency records for the period of 2022 - 2024, and TP interview, the technical supervisor failed to ensure all TP had annual competency performed. Findings: 1. Review of TP competency records revealed 4 out of 7 personnel annual competency assessments were incomplete. Review of competency records revealed: - TP1 (CMS 209) incomplete KOH competencies for 2023 and 2024 - TP3 (CMS 209) incomplete KOH competencies for 2023 and 2024 - TP6 (CMS 209) incomplete KOH competencies for 2023 and 2024 - TP7 (CMS 209) incomplete KOH competencies for 2023 and 2024 2. Interview with a Laboratory Histology Technologist on June 18, 2024 at 11:30 am in the breakroom, confirmed the aforementioned findings.</p>
