D5217	<p>EVALUATION OF PROFICIENCY TESTING PERFORMANCE CFR(s): 493.1236(c)(1)</p> <p>At least twice annually, the laboratory must verify the accuracy of any test or procedure it performs that is not included in subpart I of this part.</p> <p>This STANDARD is not met as evidenced by: Based on review of the procedure, review of proficiency testing (PT) records, and email communication with the office manager (OM), the laboratory failed to ensure PT histopathology slides were reviewed at least twice annually. Findings: 1. The "Proficiency Testing Program" procedure stated "Annually, the tech or Risk Manager will send two cases containing the original slides, label it with only the surgical case number, and send it out for a microscopic examination by a Board Certified Pathologist ...Upon receipt of the pathology report from the Pathologist, diagnosis of the slide specimen will be matched to the in-house diagnosis by the physician." 2. Paperwork for four cases each of frozen biopsies and Mohs surgeries for 2022 was present in the quality assurance binder. 3. The paperwork did not include a diagnosis from the reviewing pathologist. 4. In an email received on 12/06/2023 at 3:56 PM, the OM confirmed that the slides for the 2022 PT review were pulled, but never submitted for review from a 2nd pathologist and would be sent out for review in 12/2023.</p>
