(X4) ID Prefix Tag	Summary Statement of Deficiencies
D0000	A CLIA recertification survey was conducted for the Valley Medical Group laboratory pursuant to the Clinical Laboratory Improvement Amendments (CLIA) of 1988 and CLIA regulations at 42 CFR 493. .
D5805	<p>TEST REPORT CFR(s): 493.1291(c)</p> <p>The test report must indicate the following: (c)(1) For positive patient identification, either the patient's name and identification number, or a unique patient identifier and identification number. (c)(2) The name and address of the laboratory location where the test was performed. (c)(3) The test report date. (c)(4) The test performed. (c)(5) Specimen source, when appropriate. (c)(6) The test result and, if applicable, the units of measurement or interpretation, or both. (c)(7) Any information regarding the condition and disposition of specimens that do not meet the laboratory's criteria for acceptability.</p> <p>This STANDARD is not met as evidenced by: . Based on record review and interview, the laboratory failed to indicate on the patient final test report the correct name of the laboratory address where testing was performed as evidenced by the following: a) A review was performed of forty (40) final patient test reports issued between 5/5/21 and 4/4/22. The review revealed the fact that the address of the laboratory in the Athena electronic medical record (EMR) indicated the previous address of 329 Conway St., Greenfield, MA 01301 for all forty final reports reviewed. a) The Technical Supervisor confirmed in an interview on 4/6 /22 at 4:00 P.M. that the patient final test reports did not indicate the correct name of the laboratory where the testing was performed. The laboratory issues reports based on 672,722 tests performed annually. .</p>
