This STANDARD is not met as evidenced by:

. Based on record review, interview, and email correspondence with Testing Personnel #2 (TP2), the laboratory failed to ensure testing personnel performing high complexity testing met the qualification requirements of 493.1489 for 1 (TP2) of 2 testing personnel listed on the CMS-209 form. Findings include: 1. An interview on 6/7/21 at 9:46 am with TP2 revealed they are performing tissue specimen grossing for the laboratory's histopathology testing. 2. A review of the laboratory's personnel records revealed a lack of qualification documentation for TP2 to meet the high complexity testing personnel requirements. The laboratory was given 7 days to provide the additional documentation. 3. The surveyor received transcripts sent via email on 6/7/21. The transcripts lacked at least 6 semester hours of chemistry. 4. TP2 confirmed via email on 6/7/21 that they do not have at least 6 semester hours of chemistry.
