

Statement of Deficiencies	(X1) Provider/Supplier/CLIA Identification Number 23D2173930	(X3) Date Survey Completed 02/25/2026
Name of Provider or Supplier Curtis Thompson Md & Associates Pllc	Street Address, City, State 3131 S State Street Suite 309, Ann Arbor, MI	
For information on the provider's plan to correct this deficiency, please contact the provider or the state survey agency.		

(X4) ID Prefix Tag	Summary Statement of Deficiencies
D0000	A recertification survey was performed on February 25, 2026 by the State of Michigan Licensing and Regulatory Affairs Department. The laboratory was found to be out of compliance with CLIA regulations (42 CFR Part 493, Laboratory Requirements) for the following condition-level deficiencies: 493.1459 Condition: Laboratories performing high complexity testing; general supervisor. Based on record review and interview with general supervisor #2, the laboratory failed to operate as a separate laboratory to comply with 493.43 for six (September 2025 to February 2026) of six months since laboratory B started testing. Findings include: 1. The surveyor observed the laboratory director's office on 2/25/26 at 1:00 pm. The office was in suite 307, where laboratory B is located. 2. A review of laboratory B's records revealed this laboratory started testing in suite 307 on 9/24/25. Laboratory A's address is in suite 309. 3. An interview on 2/25/26 at 1:55 pm with general supervisor #2 confirmed the laboratory director is reading digital pathology slides for laboratory A out of his office in suite 307.
D6127	<p>TECHNICAL SUPERVISOR RESPONSIBILITIES CFR(s): 493.1451(b)(9)</p> <p>(b)(9) Evaluating and documenting the performance of individuals responsible for high complexity testing at least semiannually during the first year the individual tests patient specimens.</p> <p>This STANDARD is not met as evidenced by: . Based on record review and interview with general supervisor #2, the technical supervisor failed to perform and evaluate testing personnel competency at least semiannually within the first year of testing for one (testing personnel #8) of three testing personnel performing specimen grossing listed on Form CMS-209. Findings include: 1. A review of testing personnel competency assessment records revealed a lack of semiannual competency assessments performed for testing personnel #8, who performs specimen grossing. Testing personnel #8 completed training in April 2024</p>

and had competency assessments performed on 8/29/24 and 8/29/25. No semiannual competency assessment was present. 2. An interview on 2/25/26 at 3:30 pm with general supervisor #2 confirmed semiannual competency assessments were performed within the first year of testing for testing personnel #8.

D6141

GENERAL SUPERVISOR

CFR(s): 493.1459

The laboratory must have one or more general supervisors who are qualified under 493.1461 of this subpart to provide general supervision in accordance with 493.1463 of this subpart.

This CONDITION is not met as evidenced by:

. Based on record review and interview with general supervisor #2, the laboratory failed to ensure general supervisor #2, overseeing histopathology and oral pathology testing, was a state-licensed physician and had, or was a resident seeking the appropriate board certification. Refer to D6143.

D6143

GENERAL SUPERVISOR QUALIFICATIONS

CFR(s): 493.1461

(a) The general supervisor must possess a current license issued by the State in which the laboratory is located, if such licensing is required; and (b) The general supervisor must be qualified as a-- (b)(1) Laboratory director under 493.1443; or (b)(2) Technical supervisor under 493.1449. (c) If the requirements of paragraph (b)(1) or (2) of this section are not met, the individual functioning as the general supervisor must-- (c)(1)(i) Be a doctor of medicine, doctor of osteopathy, or doctor of podiatric medicine licensed to practice medicine, osteopathy, or podiatry in the State in which the laboratory is located or have earned a doctoral, master's, or bachelor's degree in a chemical, biological, clinical or medical laboratory science, or medical technology from an accredited institution; and (c)(1)(ii) Have at least 1 year of laboratory training or experience, or both, in high complexity testing; or (c)(2)(i) Qualify as testing personnel under 493.1489(b)(3); and (c)(2)(ii) Have at least 2 years of laboratory training or experience, or both, in high complexity testing; or (c)(3) Meet the requirements at 493.1443(b)(3) or 493.1449(c)(4) or (5); or (c)(4) Notwithstanding any other provision of this section, an individual is considered qualified as a general supervisor under this section if they were qualified and serving as a general supervisor in a CLIA-certified laboratory as of December 28, 2024, and have done so continuously since December 28, 2024. (d) For blood gas analysis, the individual providing general supervision must-- (d)(1) Be qualified under 493.1461(b)(1) or (2), or 493.1461(c); or (d)(2)(i) Have earned a bachelor's degree in respiratory therapy or cardiovascular technology from an accredited institution; and (d)(2)(ii) Have at least one year of laboratory training or experience, or both, in blood gas analysis; or (d)(3) (i) Have earned an associate degree related to pulmonary function from an accredited institution; and (d)(3)(ii) Have at least two years of training or experience, or both in blood gas analysis. (e) The general supervisor requirement is met in histopathology, oral pathology, dermatopathology, and ophthalmic pathology because all tests and examinations, must be performed: (e)(1) In histopathology, by an individual who is qualified as a technical supervisor under 493.1449(b) or (f)(1); (e)(2) In dermatopathology, by an individual who is qualified as a technical supervisor under 493.1449(b) or 493.1449(f)(2); (e)(3) In ophthalmic pathology, by an individual who is qualified as a technical supervisor under 493.1449(b) or 493.1449(f)(3); and (e)(4)

In oral pathology, by an individual who is qualified as a technical supervisor under 493.1449(b) or (g).

This STANDARD is not met as evidenced by:

. Based on record review and interview with general supervisor #2, the laboratory failed to ensure general supervisor #2, overseeing histopathology and oral pathology testing, was a state-licensed physician and had, or was a resident seeking the appropriate board certification for one (general supervisor #2) of two general supervisors listed on Form CMS-209. Findings include: 1. A review of general supervisor #2's, overseeing histopathology and oral pathology testing, qualification records revealed a lack of records showing they were a state-licensed physician and either certified in pathology or dermatopathology by the American Board of Pathology or the American Osteopathic Board of Pathology or a resident in a training program leading to certification. There was a lack of documentation showing they were certified in oral pathology by the American Board of Oral Pathology or a resident in a training program leading to certification. 2. An interview on 2/25/26 at 12:56 pm with general supervisor #2 revealed they were performing competency assessments for testing personnel performing grossing in oral pathology and dermatopathology specialties and confirmed they did not meet the qualification requirements for general supervisor.
