This STANDARD is not met as evidenced by:

Based on observation, interview, and record review, laboratory personnel performing inking and mapping at the time of the survey failed to meet qualification requirements for high complexity testing. Findings include: 1. Observations on 8/22/2022 at 9:30 a.m. and 9:45 a.m. revealed Staff A (histotech) performing inking and mapping of two patient tissue specimens. Staff A was not listed on the CMS-209 personnel form as testing personnel. 2. Interview on 8/22/22 at 9:45 a.m. with Staff A confirmed the above finding. Staff A revealed that sometimes the Laboratory Director (Moh's Surgeon) will perform the inking and mapping and sometimes Staff A will perform the inking and mapping. 3. Review of Staff A's personnel record on 8/22/2022 revealed no documentation of qualifications to perform inking and mapping (high complexity testing).
