This STANDARD is not met as evidenced by:

Based on review of personnel records and interview with the laboratory director 7/18/22 and review of additional transcripts 8/4/22, the laboratory failed to ensure that 1 of 7 testing personnel (TP #7) met the minimum education requirements for performing high complexity testing. Review of personnel records for TP #7 revealed a Bachelor of Science degree in Health Sciences. On 8/4/22, a review of additional transcripts provided after the survey on 7/18/22 and 8/2/22 revealed TP #7 did not have 24 semester hours of science courses that included 6 semester hours of chemistry, 6 semester hours of biology and 12 semester hours of chemistry, biology, or medical laboratory technology in any combination. During interview at approximately 11:15 a.m., the laboratory director stated they had reviewed TP #7's transcript and they thought TP #7 met the requirements.
