(X4) ID Prefix Tag	Summary Statement of Deficiencies
D0000	An on-site announced CLIA recertification survey was conducted at the clinical laboratory of Prisma Health Family Medicine of Bishopville on March 26, 2025, by the South Carolina Department of Public Health's (SC DPH) Bureau of Nursing Homes and Medical Services. The laboratory was found to be out of compliance with the Medicare Condition at 42 CFR Part 493, CLIA Requirements for Laboratories. The following is a list of Standard Level deficiencies identified during the CLIA recertification survey:
D2089	<p>ROUTINE CHEMISTRY CFR(s): 493.841(c)</p> <p>(c) Failure to participate in a testing event is unsatisfactory performance and results in a score of 0 for the testing event. Consideration may be given to those laboratories failing to participate in a testing event only if-- (1) Patient testing was suspended during the time frame allotted for testing and reporting proficiency testing results; (2) The laboratory notifies the inspecting agency and the proficiency testing program within the time frame for submitting proficiency testing results of the suspension of patient testing and the circumstances associated with failure to perform tests on proficiency testing samples; and (3) The laboratory participated in the previous two proficiency testing events.</p> <p>This STANDARD is not met as evidenced by: Based on records review and staff interview, the laboratory failed to participate in a proficiency testing event. Findings included: 1. Review of laboratory documentation reveals failure to participate in the American Proficiency Institute (API) first event 2024. 2. No documentation for failure to participate in the API first event 2024 was available at the time of the survey. 3. In an interview with the practice manager on March 26, 2025 at 12:00pm in the laboratory office, the findings were confirmed.</p>
