Name of Provider or Supplier Westlake Dermatology & Cosmetic Surgery	Street Address, City, State 200 N Lakeline Blvd Suite A, Cedar Park, TX	
For information on the provider's plan to correct this deficiency, please contact the provider or the state survey agency.		

(X4) ID Prefix Tag	Summary Statement of Deficiencies
D0000	The Westlake Dermatology & Cosmetic Surgery - Cedar Park laboratory was found to be in compliance with the Conditions of the CLIA regulations found at 42 CFR 493.1 through 493.1780, CLIA requirements for laboratories as a result of a recertification survey on 01/15/2026 and recertification is recommended. Standard level deficiency was cited.
D5801	<p>TEST REPORT CFR(s): 493.1291(a)</p> <p>(a) The laboratory must have an adequate manual or electronic system(s) in place to ensure test results and other patient-specific data are accurately and reliably sent from the point of data entry (whether interfaced or entered manually) to final report destination, in a timely manner. This includes the following: (a)(1) Results reported from calculated data. (a)(2) Results and patient-specific data electronically reported to network or interfaced systems. (a)(3) Manually transcribed or electronically transmitted results and patient-specific information reported directly or upon receipt from outside referral laboratories, satellite or point-of-care testing locations.</p> <p>This STANDARD is not met as evidenced by: Based on review of the Mohs testing log, case slides, Mohs map, test report and interview, the laboratory failed to accurately transcribe the Mohs case number onto the Mohs test report for one out of eight cases reviewed from 01/16/2024 - 01/15/2026. Findings follow. A. Random review of eight Mohs cases from 01/16/2024 - 01/15/2026 showed the Mohs testing log from 10/08/2025 identified the case as HCP25-609, with the slides and Mohs map matching this case number and patient name. Review of the patient's chart note (and test report) from 10/08/2025 identified the case as HCP25-069. B. The Laboratory Manager confirmed the test report case number in question should have been HCP25-609 in an interview on January 15, 2026 at 1500 hours in the laboratory.</p>
