<b>(X4) ID Prefix Tag</b>	<b>Summary Statement of Deficiencies</b>
<b>D0000</b>	The laboratory was found to be in substantial compliance with CLIA regulations 42 CFR Part 493. Standard level deficiencies were cited.
<b>D5805</b>	<p>TEST REPORT CFR(s): 493.1291(c)</p> <p>(c) The test report must indicate the following: (c)(1) For positive patient identification, either the patient's name and identification number, or a unique patient identifier and identification number. (c)(2) The name and address of the laboratory location where the test was performed. (c)(3) The test report date. (c)(4) The test performed. (c)(5) Specimen source, when appropriate. (c)(6) The test result and, if applicable, the units of measurement or interpretation, or both. (c)(7) Any information regarding the condition and disposition of specimens that do not meet the laboratory's criteria for acceptability.</p> <p>This STANDARD is not met as evidenced by: Based on review of patient Mohs maps and confirmed in interview, the laboratory failed to include the testing facility address on the Moh's maps for one of five patients in 2024 (random review December) and five of five patients in 2025 (random review February). Findings included: 1. A random review of patient Mohs maps from December 2024 and February 2025 revealed the following six patient Mohs maps which did not include the testing facility address: 12/17/2024 Mohs Case #: M24-1178 02/17/2025 Mohs Case #: M25-164, M25-165, M25-166, M25-167, M25-168 2. During an interview on 04/01/2025 at 2:00 p.m., the laboratory representatives after a review of records, confirmed the above findings.</p>
