<b>(X4) ID Prefix Tag</b>	<b>Summary Statement of Deficiencies</b>
<b>D3043</b>	<p>RETENTION REQUIREMENTS CFR(s): 493.1105(a)(7)</p> <p>The laboratory must retain cytology slide preparations for at least 5 years from the date of examination (see 493.1274(f) for proficiency testing exception). The laboratory must retain histopathology slides for at least 10 years from the date of examination. The laboratory must retain pathology specimen blocks for at least 2 years from the date of examination. The laboratory must preserve remnants of tissue for pathology examination until a diagnosis is made on the specimen.</p> <p>This STANDARD is not met as evidenced by: Based on patient test records review, lack of documentation, and confirmation by staff, the laboratory failed to retain histopathology slides for at least 10 years for 1 of 10 Mohs frozen micrographic surgery cases reviewed. The laboratory performed approximately 2500 Mohs surgical blocks (stages) per year. Findings include: 1. Patient test record for Mohs case number LM-17-11-1 included documentation the case consisted of 3 (III) stages. Stage II had 2 sections. 2. The laboratory failed to locate the slides for Stage II section B. 3. In an interview conducted on 01/09/2019 at approximately 10:45 A.M., the technical consultant and the director confirmed the laboratory failed to retain the slides from the B section of stage II.</p>
